

The Congress on Monday (April 20, 2026) demanded an immediate, time-bound probe into the latest killings in Manipur, including those of two children, and called for urgent peace measures, compensation for victims, and institutional reforms to restore normalcy in the violence-hit State. Addressing a press conference at the old headquarters of the All India Congress Committee here, Inner Manipur MP A. Bimol Akoijam alleged that both the Centre and the State government had “abdicated responsibility” of protecting lives and ensuring peace. The party has submitted a memorandum to Prime Minister Narendra Modi seeking immediate intervention. Referring to the April 6–7 incident at Tronglaobi village in Bishnupur district where two children were killed and their mother injured, Mr. Akoijam termed it a “gruesome reminder” of continuing insecurity. He also cited a separate firing incident at a Central Reserve Police Force (CRPF) post in Gelmon village that left three persons dead and several injured.

‘Restore normalcy’

“The violence on April 7 is a reminder that the situation is not under control. It would be a dishonest pretension if one thinks that violence has come down in Manipur,” Mr. Akoijam said, adding that the Manipur Pradesh Congress Committee had submitted a fresh memorandum to the Governor.

Calling for accountability, the party demanded a time-bound investigation into the Tronglaobi killings and strict action against armed groups and individuals involved in violence. It urged the government to restore normalcy in affected districts, reopen highways, and ensure safe access to essential services such as hospitals, educational institutions, and transport networks.

The Congress MP further flagged persistent violence in Ukhrul and Kamjong districts since February, including incidents of arson and killings, and noted that National Highway-202 remained shut, disrupting essential supplies. The killing of a Border Security Force (BSF) jawan on April 10 was cited as the latest escalation.

‘Publish findings of probe’

The Congress leader also called for the reorganisation and strengthening of the Manipur Police, pointing to what the party described as administrative failure and erosion of institutional capacity. The party pressed for the immediate publication of findings of the inquiry commission set up on June 4, 2023, to probe the violence that began on May 3 that year.

Among other measures, the party sought adequate financial and material relief for victims, policies to mitigate the economic fallout of the prolonged unrest, and structured dialogue with stakeholders. It also sought deferment of the Census and the delimitation exercises in the State until law and order is restored, alongside a “judicious” process to address the issues of citizenship and illegal immigration.
